

Ordering a 22-String Travel Harp

Updated: March 5, 2024

Frequently asked questions...

What comes with the 22-Travel Harp?

Front View: 22-Travel Harp (walnut, semi-gloss)

Note: There is an extra fee for walnut wood.

Back View: 22-Travel Harp (with display base)

See order form for prices.

The **22-Travel Harp** starts at a Low F (below middle C) and goes to a high “f” and is 21” tall, 13” wide, 2-1/4” deep, and is 3 lbs. It was specially designed for those who want a portable harp to take on an airplane which will fit (with case) in an overhead compartment.

What other woods are used to make this harp?

We typically make this harp out of cherry (see picture on right) or walnut wood with a semi-gloss finish... or we can make it from special woods (like Padauk, African Mahogany, figured walnut, cherry or maple) for an extra fee.

We recommend walnut or cherry if you plan to wear it, since they are lighter-weight woods.

Note: the price of walnut has gone up, so we have to charge extra for that wood.

What kind of finish do you use on this harp?

A semi-gloss finish is the standard, but we can do a high-gloss finish for an extra fee. Both semi-gloss and high-gloss protect the harp, so it's just a matter of personal preference.

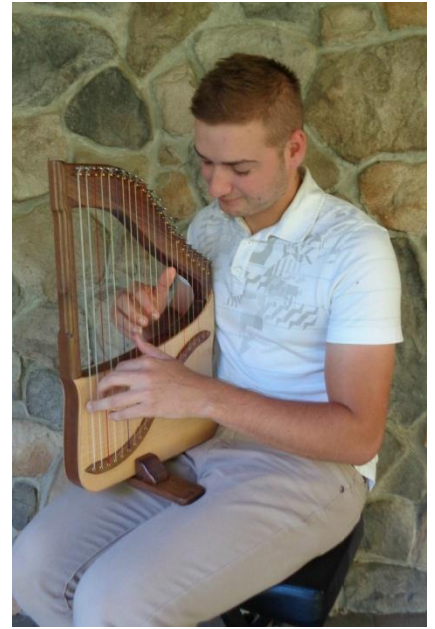

What are the other accessories available for the Travel Harp?

Oval Display Stand

Backplate with strap

Support Bar w/non-skid rubber

The oval stand is used for display only. The backplate enables the player to stand or walk with the harp while playing and the support bar makes playing this harp on your lap easier (it has high-friction on the bottom and won't slide on your lap). Prices will vary depending on your wood choice. **See order form for prices for each accessory.**

What levers are available to use on this harp?

Gold Truitt Levers

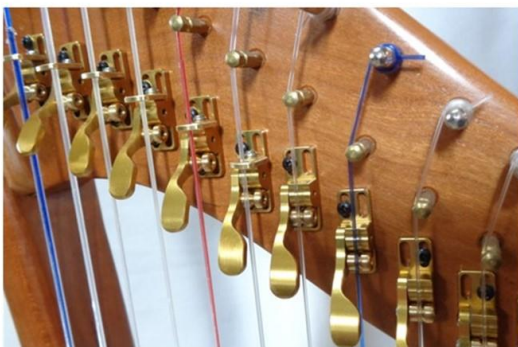

Silver Rees Levers

Note: You can get a full set of levers or partial (such as C+F's or C,F+B)

For prices see order form.

We can also put blue and red Bands on the C+F's on the gold Forte and silver Rees levers. The Forte also provide red and blue levers for the C+F's upon request.

**Shown Above: Gold Forte Levers
Silver Forte Levers are also available**

Can I add a Mic Pick-up?

Yes, for an extra fee we can add a mic pick-up which includes K&K Big-Twin transducers added to the inside of the front sound board, and a metal jack on the bottom front of the pillar of the harp.

Where can I get a padded case?

We have three different case makers that supply us with this style case (which has three sections inside so that you can have the harp in the center, the backplate behind the harp, and the display base and/or support bar in the front section. We often have some in stock, so check with us first.

Colors: black, navy, purple, maroon & royal blue

See order form for prices

What type of electronic tuner do you recommend?

This ENO electronic tuner will clip onto the pillar of the harp, and make tuning easier.

If you want to change the frequency from 440 to 432 or something different, then this is a good one for you, since changing frequency is just a matter of pressing the up or down arrows.

ENO ET-3000A Electronic Tuner
(Pictured on left)

What comes with the purchase of a 22-Travel Harp?

We will give you an extra set of just the regular nylon strings along with a tuning wrench. If you would like an extra set of the special low wound strings, they can be purchased from us.

How do you receive payment?

Since we are a small family business, we can only take credit cards (through PayPal) at this time for small harps (and the PayPal service fee gets added to your total). Our U.S. customers send us either a personal check or a bank money order made payable to Marini Made Harps. For international customers, after your order is confirmed we would email you an invoice through PayPal for small harps, or send our bank information for payment for larger harps...where you would wire your payment directly to our special bank account that we have set up for this (a small bankfee is added to your total). So, first you would email us your request with the order form filled out, and then we will email you back an invoice with everything listed and a final total. Once this is done, then we would proceed with your harp order. If the harp you want is available, then we would ship the harp to you once we receive payment. If we still need to make the harp, then we will notify you about 1 to 2 weeks before construction begins so that you can mail (or wire) us your payment.

Thank you for your interest in our Travel harp... we hope that we can serve you! *The Marini Family*
