

# Ordering a 34 or 38-String Regency Harp

*Updated: March 7, 2024*

## *Frequently asked questions...*

### *What comes with the 34-String Regency & 38-String Regency Robusto Harps?*

The **34-Regency Harp** starts at a Low C and goes to a high “a” and is 62” tall, 16” wide, 29” deep, and is 40 lbs (type of wood selected will determine total weight). This harp has an amazing volume and resonance to it, and we also make it in an “Affordable” version without the extra trim work for less.

The **38-Regency Robusto** starts three notes lower than the regular Regency, and goes to a high “b” note, and is 62-1/2” tall, 20-1/2” wide, and 30” deep and weighs 45 lbs (weight will vary depending on your wood choice). We give a set of nylon strings (does not include the low special strings) and a tuning wrench. More on strings below. **See order form for prices.**

### *What woods are used to make this harp?*

**34-Regency Harp**  
(shown in cherry, semi-gloss)

**34-Affordable Regency**  
(shown in walnut, semi-gloss)

**38-Regency Robusto**  
(shown in exotic Padauk, high-gloss)

**(Note: there is an extra fee for walnut and exotic woods)**

### *Can I add a Mic Pick-up?*

Yes, for an extra fee we can add a mic pick-up which includes K&K Big-Twin transducers added to the inside of the sound board, and a metal jack on either the right or left side (bottom) of the harp.

*What kind of finish do you use on these harps?*

A semi-gloss finish is the standard, but we can do a high-gloss finish for an extra fee. Both the semi-gloss and high-gloss finish protect the harp, but the high gloss finish is more shinny and makes the harp look darker (see harp on right).

Both harps pictured right are the 34-Affordable Regency harps made of walnut (the one on the left has a semi-gloss finish, and the one on the right has a high-gloss finish). We can also make this harp in exotic woods, like Padauk and African Mahogany. Walnut and exotic woods are more expensive so we have to charge an extra fee for using those woods.

**See the order form for prices.**

*What kinds of levers are available for these harps?*

**Top: Gold Truitt Levers**  
**Bottom: Gold Forte Levers**

**Top: Gold Camac Levers**  
**Bottom: Silver Camacs**

**Silver Rees Levers**

**Note: You can get a full set of levers or partial (such as C+F's or C,F+B) For prices see order form.**

*Can I get a padded case for this harp?*

You can purchase a special padded case from us. We have three different companies that have our patterns. Check with us first to see if we have one in stock. If we don't have the color you want, then we can either order it or direct you to one of our three case makers. The picture above shows the "one-piece" case (which has a special pocket on the bottom to slip in a wheel cart. Ask about our "two-piece" case (which makes loading the harp into the case easier).

**See order form for prices.**

*Where can I get extra strings for these harps?*

We will give you an extra set of regular nylon strings along with a tuning wrench. If you would like an extra set of the special low wound strings, they can be purchased directly from us.

ENO ET-3000A Electronic Tuner

If you want to change the frequency from 440 to 432 or something different, then you'd want to get this model (shown left), so that you can change it with the arrow buttons.

Another option is to download the "Piano Tuner" app on your cell phone (which works well if you're in a quiet room by yourself).

### ***How do you receive payment?***

Since we are a small family business, we take credit cards only through PayPal for small harps (the PayPal service fee is added to your total). For this type of harp, our U.S. customers send us either a personal check or a bank money order made payable to Marini Made Harps. For international customers, after your order is confirmed we would email you our special bank information for payment directly to our special account that we have set up for this (a small bank fee is added to your total). So, first you would email us your request with the order form filled out, and then we will email you back an invoice with everything listed and a final total. Once this is done, then we would proceed with your harp order. If the harp you want is available, then we would ship the harp to you once we receive payment. If we still need to make the harp, then we will notify you about 1 to 2 weeks before construction begins so that you can mail (or wire) us your payment.

Thank you for your interest in our Regency Harp... we hope that we can serve you!
